

## Fulton Schools HVAC Removal and Replacement – 2026

Fulton Schools are seeking bids for two HVAC replacements. Two new RTU will be purchased and completely installed in two separate locations. The bid needs to include removal of three existing RTU's.

### Media Center –

Removal of existing HVAC Unit. The current unit will be removed and replaced with a new HVAC RTU. Job will consist of complete removal of the old HVAC unit and complete installation of the new gas fired HVAC RTU. The new RTU will need to be fitted to use existing duct work and to the control system. The new HVAC unit will be installed in a slightly different location and may need to have some structural support added.

### Shop/Wrestling Room –

Removal of two existing RTU's. Two RTU's will be removed and replaced with just one RTU. The new RTU will be a heating unit only. The unit will need to be fitted to existing duct work. One old RTU will be removed, and the roof will need to be capped.

Site inspection can be set up by appointment with Darren Lambert by calling 989-236-7676
